Academic Partners

With Cypress Hills Regional College
Emergency Services Communicator

Northlands Regional College
Radiation/Environmental Monitoring Technician

Programs with the Saskatchewan Indian Institute of Technology are not included with the list of academic partnership arrangements.

*****

Coding

Programs with the (1&2), (3&4) and (5) codes refer to the semester system. Programs with (1) or (2) refers to year one or two of a diploma program.

*****

Notes

You will note that there are some programs where enrollments exceed seat capacities. This is primarily due to these programs being offered as competency based, where students may continue to study in programs and could be counted as new applicants or new enrolled students each academic year. An example program is Office Education at Wascana Campus.

In many cases the application rates are high. This may be due to the fact that the application rates could include those on the wait lists and the demand may appear inflated.
